

Report from Martha Pero Professional Development Chair

April, 2014

The professional development committee has hosted many workshops to help our members transition through the new OTES and SLO process.

Workshops were held last spring and summer to help write SLOs and learn about Integrated Performance Assessments. The response was quite favorable by the attendees and OFLA members.

OFLA hosted Dr. Frank Troyan in Columbus on February 22, 2014. He is a co-author of the new ACTFL Implementing Integrated Performance Assessments. There were 50 attendees at this workshop. There were then 8 workshops inservicing 101 members.

Beth Hanlon represented OFLA at CSCTFL extension workshop. She will be presenting a workshop on "Keeping it in the target language" in the fall.

We plan to continue to assess the needs of our members, continuing to provide them with PD via workshops and sessions.

Respectfully submitted by Martha Pero
