

# 2019 Beginning Teachers Annual Committee Report

March 16, 2019

The Beginning Teacher committee has continued to out to new teachers via their Facebook page and sharing resources, articles, and information to our 216 members.

This year we worked to reach out to and connect with Beginning Teachers and to help them to feel more a part of our WL community.

In addition to the Facebook group, our committee has also contributed articles to *The Cardinal* specifically geared towards issues and challenges facing beginning teachers.

The Committee is also worked this year on getting in touch with and visiting different teacher training programs around the state to help promote OFLA and the professional development, networking and support opportunities that it offers teachers, especially those new to the profession. Making these connections to pre-service teachers will allow us to build a network to keep in touch with Beginning Teachers as they graduate and enter the profession.

Committee members also two organized presentations at CSCTFL 2019 geared specifically towards early career teachers: Beginning Teacher Round Tables and Tech Tools ALL Beginning Teachers Should Know!

Many of our Beginning Teachers won conference scholarships this year and will be present as volunteers at OFLA 2018.

Respectfully submitted,  
Nicole Hanlon, Beginning Teachers Chair

Committee Members include:

- Nicole Hanlon, chair
- Megan Brady
- Kieron Cindric
- Angela Gardner
